

SUBMIT A TEMPLATE

Have you made a document template that others could use, customize, or learn from? Share it with the community and help make DocuWrite Pro's template library better for everyone.

How do I prepare the document?

1. Create an amazing document!
2. Name the document whatever you want! This will be your template title.
3. Redact all personal information, using placeholders (as [example]) is highly recommended.
4. If you are using locally imported fonts, try finding that font on Google Fonts. If found, use that font instead, load it through the Online Fonts section in the Fonts menu.
5. Set the editor to Editing mode and zoom to 100%
6. Make sure there are no misspelled words. Use the Spell Check and Grammar Check feature from Assistive Writing.
7. Make sure no offensive words or phrases are in the document, you may use the built-in Avoid Offensive Content feature within Assistive Writing.
8. Before exporting disable any Assistive Writing feature and enable Add-on.
9. Click the Export button, then click Export Options. Afterward, select SCD. Make sure that Lock All Images and Global Fonts toggles are turned on, and Image Quality is set to 100%
10. Click Export SCD.

How do I submit?

1. Send an email to mohtadiazadmahi902@gmail.com with the exported SCD file.

Submission Email Format

A little gift for your contribution.

When your template is approved and added to the community, you'll receive a **Contributor Badge** ❤️ as a small thank-you for helping DocuWrite Pro grow. Your badge will be automatically linked to the email address you used when submitting your template, so your contribution stays connected to you. It's our way of recognizing the people who share their creativity, ideas, and time with the community. You'll be given credit for your template.

Any Questions?

Have a question about contributing, templates, approval, or anything else? Feel free to reach out directly at mohtadiazadmahi902@gmail.com. We're always happy to help!
